

# Bonyo's Kenya Mission

January 2024

Your continued support is vital for Mama Pilista Bonyo Memorial Health Centre to provide hope!

Dear Friend of Bonyo's Kenya Mission,

Your steadfast generosity sustains Mama Pilista Bonyo Memorial Health Centre, saving and improving lives. Despite NHIF approval, government funding falls short, making donor support crucial. You've transformed the clinic into a community hub, providing vital opportunities beyond healthcare.

With your ongoing support, we're making significant strides against malaria, eliminating mother-to-baby HIV transmission, and establishing local care for HIV & TB patients. Your contributions enable comprehensive care, including wound care, counseling, in-and out-patient care, pharmacy, lab testing, and vision services. The clinic remains a top choice for pre- and post-natal care, ensuring healthy pregnancies, births, and follow-up for children.

Your impact extends beyond healthcare, providing clean water, study aids, uniforms, and education. You've ensured community outreach through volunteer workers and taxi drivers, even providing meals for children left alone. Your ongoing gift makes a profound difference in the lives we serve, fostering a brighter future.

We're deeply grateful for your invaluable contribution. Together, we transform lives. For questions or further information about our projects, please don't hesitate to reach out.

With heartfelt appreciation, Bonyo's Kenya Mission Akron, Ohio USA
